REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art of record (namely, McIntyre US 6,690,478, Tsunekawa US 5,737,501 and Sasaki U.S. 5,228,118) does not teach, disclose or suggest, generating an object classification table of the print object in parallel with the generation of the intermediate data; selecting one PDL from among a plurality of PDLs using the object classification table; and generating PDL data from the intermediate data in the selected PDL, as claimed in claim 4. Claims 1 and 7 contain similar features and are allowed over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sasaki (U.S. 5,228,118) teaches selecting a printer driver based on interpreter identification data.
